RECOMMENDATION OF PHOENYX LEGAL SERVICES CC

We have utilised the expertise of Phoenix Legal Services for a period of time and for amongst other things the service and filing, issuing and delivering of all court processes at the various magisterial jurisdictions in the Greater Johannesburg district, this includes the North Rand, East Rand, West Rand and the South of Johannesburg.

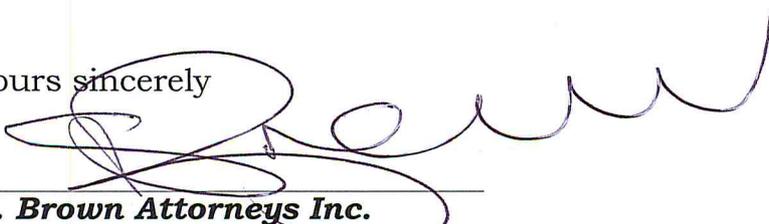

We have also handed instructions to the company to collect documentation, liaise with the various judicial departments in and around Johannesburg, this includes the Pretoria Deeds office as well as the Deeds office in Johannesburg in addition we have found that Phoenix Legal Services is highly successful with obtaining what may be required in both the Johannesburg and Pretoria Master's offices.

Phoenix Legal Services has contacts in majority of the relevant judicial and governmental departments relevant to attorneys practises and due to this as well as the turnaround time from receiving an instruction to completion of that instruction has proved to be a great asset as delays have been in most instances avoided or not experienced at all. We have found that in the event of Phoenix Legal Services experiencing any problems in obtaining documentation or in any other duties assigned to them that the staff are determined, without reservation to go the extra mile to assist. We also greatly appreciate the reporting and constant feedback received on the odd occasions when obstacles had been experienced. We have found that Madelein Olckers together with her staff have excellent customer communication skills as well as exemplary negotiation skills with the vast connections they call on in the daily running of the company.

We have further found that Phoenix Legal Services goes the extra mile in order to provide excellent customer service. We are happy and will not hesitate to refer this company to any person who may require its services.

Should you have any queries please do not hesitate to contact our offices.

Yours sincerely

S. Brown Attorneys Inc.
